

The National Capital Chapter of the Oncology Nursing Society

Presents:

CDK4/6 Inhibitors for Treating Metastatic Breast Cancer: Care Strategies for Improved Patient Adherence and Outcomes

Guest Speaker:

Sharon S Gentry, RN, MSN, AOCN, CBCN

Breast Nurse Navigator, Novant Health Derrick L Davis Cancer Center

Cyclin-dependent kinase (CDK) 4/6 inhibition significantly prolongs progression-free survival (PFS) in patients with metastatic breast cancer (mBRCA) whose disease progresses on endocrine therapies. This activity will address the efficacy and safety of CDK4/6 inhibitors and describe how to monitor for and address adverse events (AEs) associated with these agents. It will also review strategies to monitor and improve patient adherence to treatment. Go to <http://nationalcapital.vc.ons.org/> for learning objectives.

Wednesday, April 11, 2018

5:30 pm Registration and Networking
